

# Large Format Digital Printing Spec Sheet

## Banners / Posters

We offer banners and posters for both indoor and outdoor applications. Our banners can be printed at almost any length and up to 72 inches wide. By offering a range of aqueous, solvent, and UV-curable printing technologies, we can create spectacular color images on a myriad of substrates to suit your exact requirements.

## Event / Trade Show Graphics and Displays

We print large format digital display graphics on our new state-of-the-art digital UV-curable and photographic solvent printers. Our expert craftsmen design and manufacture the highest quality portable trade show displays, banner stands and hanging banners, and print brilliant large format trade show and retail display graphics panels.

## Window Graphics

Say it all with breathtaking window graphics. Windows are now an excellent place for advertising or simply increasing the décor of your surroundings. When using the right materials and the right printing equipment, window graphics can create the illusion and message you desire.

## Many Rigid and Flexible Substrates Available (but not limited to):

- Vinyl
- Foam board
- Polycarbonate film
- Photo paper
- MDO (plywood)
