

# Wilson-Hurd's Web Site Awarded the Gold at the 2005 CameoFest Awards

Eight Gold and ten Silver awards were presented during the CameoFest XVIII Festival on May 20, 2005 at the University of Wisconsin-LaCrosse.

Becker Communications was presented with a Gold award in the "Interactive Multimedia Category" for their work on the Wilson-Hurd web site.

Entries in this category were judged on the use of current technology, navigation, communication of information, innovation, clarity of purpose, and effectiveness.

Becker Communications was awarded the Gold based upon the innovative way images and copy are updated through the online administrative feature – making our web site a Content Managed Site (CMS). In addition, code was also added to each page in order to help improve search engine rankings.

We wish to congratulate Becker Communications and thank them for all of their hard work in making the Wilson-Hurd web site a success.
